Why Attend

India International Pet Trade Fair (IIPTF) is the only pet trade show in India. In 2025, IIPTF celebrates its 15th year of successfully conducting this event, providing a platform which brings together sellers and buyers from India and abroad to network for business. At IIPTF, products of all kinds and companies from one man start-up to established brands exhibit their products and services.

The Indian Pet Industry is growing at 22 plus percent per annum with per capita spend per pet rising every year. Given the size and the population of the country, the industry will witness unbridled growth for another decade or so.

In the last few years, world geopolitics have changed, which impacted free flow of goods and services from one country to another. However, India has emerged as an alternative destination for sourcing products. Many companies have emerged besides the traditional exporters.

IIPTF is your destination for finding suitable partners for the Indian Pet Market

Aquagic is an event dedicated to aquarium trade. We are happy to announce that this year, it will be the 6th Aquagic with stalls from importers, manufacturers and whole sellers. To encourage people to take up aquarium keeping as hobby there will be display of beautifully designed aquariums. A knowledge session is planned to educate and upgrade hobbyists.

“

We have been quite satisfied with the number of visitors this year. It is our first time and it is always difficult to find out when we are going to enter the Indian z. We tried this year and I am convinced that it is one of the most exciting markets in the future. So, it is all about right timing.

- Jorgen Baymler, Bacterfield
